

't Mortelke Seizoenskalender 2023

Beste klant,

Dit is de seizoenskalender 2023 van 't Mortelke met ons gehele assortiment. Er is veel vraag geweest naar dit overzicht, dus presenteren we dit met trots!

De producten zijn geordend in 9 categorieën: Knollen & Wortels, (Vergeten) Groenten, Wilde planten, Kruiden, Eetbare bladeren, Eetbare bloemen, Fruit, Noten Zaden & Granen, en Paddestoelen.

Het geeft helaas geen 100% oogst zekerheid en periodes kunnen door het weer afwijken. We gaan uiteraard wel ons uiterste best doen om dit waar te kunnen maken.

De producten met een * zijn nieuw in 2023. Schuingedrukte producten halen we nu nog bij een andere natuur inclusieve boomkweker, maar behoren in de aankomende jaren ook tot ons vaste assortiment.
